

# MARCH NEWSLETTER

## Éy kwesé e'mi

**Welcome - it is good that you are here!**

Hello March! With more daylight, we feel more energized for opportunities to support growth and development for our final term of the year together. We know with the sunshine, there will be spring showers too. A metaphor for learning which symbolizes resiliency and growth.

We can feel bright and joyful, and other moments we need to take a break to breathe, and come back stronger! Taking a breath can give us time to think of another way to do something, try again or ask for help. A reminder to get calm, take a breath, and persevere!

**Focus of the month: Responsible** - I can take a break and come back stronger!
