

MAY NEWSLETTER

Welcome - it is good that you are here!

The month of May traditionally brings warmer, nicer weather and we witness the beautiful springtime changes in our community. However, with this warmer weather, our building can become very warm. Classes will take advantage of the cool morning air, opening windows until it warms up. Then they will close windows and blinds for the afternoons. Learning may shift to outdoor spaces and some classes will have AC units that will help mitigate on very warm days.

May will also bring field trip opportunities for students so be sure to fill out the permission forms online so your child may attend.

Focus of the month: Attitude - Big things start with one small step.
